

SHOWN IN GALVANIZED
OPTION

THE HURRICANE WIND FRAME SYSTEM

ENGINEERED TO HOLD UP AGAINST SOME OF THE MOST
FORMIDABLE WEATHER CONDITIONS.

KEY FEATURES AND BENEFITS:

- Never take down your panels for a hurricane again
- The Heavy Duty design is engineered for coastal markets and winds up to 154 mph
- The rear vinyl blocks wind and light and can serve as self promo space
- Extensions install easily using our Clip-It-Cutout System™
- Our frame enhances your display with a clean finished look
- G90 Galvanized Frame / Brackets Available Galvanized on Request

SHIPPING PRE-ASSEMBLED:

- Our packaging consists of one face per skid for a quick install
- We can ship with the vinyl hardware and printed vinyls included
